PSYCH UNDERGRADS WHO HAVE CHOSEN UNIQUE ADVENTURES

MEGAN SNYDER

Megan is a senior majoring in Psychology. She intends to apply for graduate school to obtain a master’s degree. She hopes to acquire a license in school counseling in the state of Iowa and to work in a secondary school. Contact her at msnyder@iastate.edu if you are interested in learning about her experiences.

What has been your favorite Psych class or academic project?

My favorite Psych class was Drugs and Behavior (PSYCH 315) with Dr. Martin Acerbo. It is very interesting to learn how the brain works in response to certain drugs. I would suggest it to anyone of any major! It may be challenging for individuals that have little to no knowledge in biology, but hang in there! It gets easier!

What is your favorite part about being an ISU student?

My favorite part about being an ISU student is knowing that I am among talented and intelligent individuals. It’s an honor being a part of a university full of elite students with different aspirations and skills. It makes my day when I walk past students who are in an in-depth conversation about something educational.

How are you involved on campus?

I am involved in ISU AfterDark and the Line Dance Club here at Iowa State University. ISU AfterDark is a volunteer club that provides students with free, late night Friday activities at the Memorial Union.

ADVICE TO YOUNGER STUDENTS:

Don't be afraid to branch out and meet important people. It will make a huge difference come junior or senior year if you have made an attempt to talk to professors or others in your field. Networking is very important! Also, make friends with other Psychology students so you can talk to a peer about academics and future plans. It may help you decide what you want to do!
