Megan is a senior in Psychology. While at ISU Megan has been a Psych Learning Community Peer Mentor, Destination Iowa State Team Leader, Maricopa Community Advisor, a member of Salt Company Leadership and Willow Hall Council, and worked in Dr. Gentile’s Media Research Lab. She has plans to attend graduate school and has an interest in non-profit fundraising. To learn more about Megan’s experience contact her at mkdodd@iastate.edu.

What is your most memorable college experience?

“Last semester I was able to study abroad in Exeter, England. During my time in Europe, I was able to visit twelve countries. Traveling gives you a brand new perspective, and I encourage every student to travel if they have the opportunity.”

What has surprised you about being a student at ISU?

“I am surprised at how many opportunities the university offers students. Students are constantly given opportunities to attend social events, professional development events, featured speakers, and sporting events. It’s easy to take all of these opportunities for granted.”

What advice would you give to other Psych students in their first year here?

“Start gaining experience within your major as soon as you can. Working a part-time job related to Psychology or working in a research lab helps you stand out after graduation and when applying for graduate school. You will thank yourself as a senior!”
