What has been your favorite Psych class or academic project?

"Psych 315 (Drugs and Behavior) and Psych 312 (Sensation and Perception): In both classes I had great teachers. They presented really interesting information that I really looked forward to listening and learning about."  

What is your most memorable college experience?

"Winning the football games against Oklahoma State at home and also winning against the Hawkeyes both at home AND at Kinnick Stadium. In general, I just enjoy marching on the field of Jack Trice as part of the band."  

ADVICE TO YOUNGER STUDENTS:

"Start making friends early! A lot of other people are going through the same things as you...Dealing with schedules, taking the same classes, learning the campus, Cyride, etc. Make some friends to share those experiences."
